<b>Ages</b>	
<b>Issue Ages</b>	Maximum issue age 85 owner and annuitant (age restrictions apply to both owners if jointly owned). Minimum owner issue age is 18, or if earlier, the age of majority as defined by law in state of issue.
<b>Maximum Annuity Age</b>	When income must begin: <ul style="list-style-type: none"> <li>• Nonqualified annuities: By age 95, otherwise the contract must be surrendered.</li> <li>• Tax-qualified annuities: Generally by April 1 of the year after the annuitant reaches age 72 unless Required Minimum Distribution (RMD) requirements are being satisfied elsewhere. Income can be taken by annuitization of the contract or by partial withdrawals. However, the contract must be annuitized or surrendered no later than age 95.</li> </ul>
<b>Ownership</b>	
	<ul style="list-style-type: none"> <li>• Single, joint; nonqualified, IRA, SEP IRA and Roth IRA</li> <li>• Nonqualified purchases by non-natural entities require prior company approval</li> </ul>
<b>Market Value Adjustment</b>	
	<p>A market value adjustment applies during the initial rate term only. After the initial rate term, the MVA no longer applies, but the withdrawal charge continues for 10 years.</p> <p>The MVA is an adjustment that can either increase or decrease the withdrawal amount depending on the current interest rate environment. When interest rates at the time of withdrawal are higher than the level at the time the contract is issued, the MVA will result in a decrease. If interest rates are down, the MVA will increase the withdrawal amount.</p> <p>Should an MVA decrease apply, the amount charged will not result in your receiving less than the minimum withdrawal value as defined in your contract. MVA does not apply to withdrawals representing penalty-free withdrawal amounts, RMDs, annuitization or death benefit. An external index referenced in your contract is used to measure rates.</p>
<b>Withdrawals</b>	
<b>Penalty-free Withdrawal Privilege</b>	After one year from the contract date, you may take multiple penalty-free withdrawals (without charges or MVA) each year not exceeding 15% of the previous anniversary contract value. Also, there is a 30-day window at the end of the initial interest rate guarantee period during which no withdrawal charge or market value adjustment will be imposed on a full or partial withdrawal. After the 30-day window expires, withdrawal charges will resume for any withdrawal in excess of penalty-free amounts through the 10th year. Additionally, RMDs which are based solely on this contract may be taken at any time after contract issue without charges or MVA.
<b>Systematic Withdrawals</b>	<ol style="list-style-type: none"> <li>1) Systematic withdrawals are allowed at any time after contract issue by making a written election.<sup>2</sup></li> <li>2) \$100 minimum amount<sup>2</sup> monthly, quarterly, semiannually or annually</li> <li>3) Systematic withdrawals may be subject to withdrawal charges</li> </ol>
<b>Partial Withdrawal</b>	\$250 minimum amount. AGL reserves the right to pay the entire withdrawal value and terminate the contract if a withdrawal reduces the contract value to less than \$2,000.
<b>Tax-Qualified Distributions</b>	AGL will make all necessary calculations to ensure IRS Required Minimum Distributions (RMD) based on the contract may be made, unless the contract owner requests otherwise.

<sup>2</sup> By company practice, which is subject to change.

## Taxes, Tax Advantages & Tax-Free Transfers

<b>Tax Deferral</b>	Federal income taxes are deferred until the year interest is withdrawn. <sup>3</sup> There is no tax deferral if the owner is a corporation. If the owner is a trust or other entity, please consult a tax advisor regarding the tax-deferred status. The return of principal may also be taxable on tax-qualified annuities, such as traditional IRAs.
<b>Tax-Advantaged Income</b>	Once the contract is annuitized, part of each annuity income payment is considered a tax-free return of principal (except tax-qualified annuities, such as traditional IRAs, where the principal may also be taxable).
<b>Pre-59½ Withdrawals</b>	Taxable withdrawals prior to age 59½ may be subject to a 10% federal early withdrawal tax penalty. The penalty may be waived for death, total disability (as defined by the IRS), or if the payment is made as part of a series of substantially equal payments for the life expectancy of the owner (except tax-qualified annuities where the entire amount withdrawn may be subject to a 10% federal early withdrawal tax penalty).
<b>Tax-Free Exchange</b>	May be used for exchanges from a life insurance or endowment contract or another annuity. <sup>4</sup> To maintain non-taxable status, the owner and annuitant must remain the same, and the owner cannot take receipt of the funds.
<b>Tax-Qualified Plans</b>	May be an initial tax-qualified contribution, or transfer or direct rollover of funds from IRAs or qualified retirement plans such as SEPs, Keoghs, 403(b)s or 401(k)s. <sup>4</sup>

## Withdrawal Charge Waivers

The following riders allow you to make withdrawals without a withdrawal charge or MVA when certain conditions are met. There is no charge for these riders. Details about utilizing the riders, including qualifying conditions and waiting periods, are set forth in the riders. These riders are not available in all states.

<b>Extended Care</b>	The owner must receive extended care for at least 90 consecutive days, beginning after the first contract year. The current extended care may not have started before the contract issue date. The rider terminates when the owner turns age 86.
<b>Terminal Illness</b>	The owner must be initially diagnosed with a terminal illness after the contract date. One partial or a full withdrawal is permitted.

## Death Benefit

Payable on death of owner. Beneficiary will receive the greater of the contract value (without withdrawal charge or MVA) or the minimum withdrawal value. Benefits can pass directly to the designated beneficiary, avoiding the potential delays and cost of probate. Joint owners must be each other's sole primary beneficiary.

<sup>3</sup> Unless your annuity is a Roth IRA, for federal income tax purposes, withdrawals are treated as earnings first, subject to ordinary income tax, and as a return of principal after earnings are exhausted.

<sup>4</sup> State replacement forms may be required on Section 1035 exchanges of life insurance policies or annuities and rollovers and transfers from other annuities.

A fixed annuity is a contract between you and an insurance company that, in exchange for your premium (earning a fixed rate of interest), offers a stream of guaranteed income payments.

Annuities are long-term products designed for retirement.

Retirement accounts such as IRAs can be tax deferred regardless of whether or not they are funded with an annuity. The purchase of an annuity within an IRA does not provide additional tax-deferred treatment of earnings. However, annuities do provide other features and benefits.

Withdrawals may be subject to federal and/or state income taxes. A 10% federal early withdrawal tax penalty may apply if taken before age 59½ in addition to ordinary income tax. Partial withdrawals may reduce benefits and contract value.
